We do so by enabling companies and their people to conduct business effectively by infusing Diversity Intelligence. As a market leader, LIVING INSTITUTE provides training and counselling to many companies with a diversity agenda and an ambition to enhance Diversity Intelligence on all levels in the organization.

We do so guided by our mantra: Research-based knowledge made practically applicable.

The Global Task Force

The increase in our global activities has resulted in the formation of LIVING INSTITUTE's global taskforce. Teams of specialists travelling all over the world to solve tasks on location for our international clients.

Our history

LIVING INSTITUTE was founded in April 2004 as a provider of high-quality solutions, training and workshops in general cultural awareness and country-specific cross-cultural training. In the early years, LIVING INSTITUTE focused on cross-cultural training and expatriate families' wellbeing during the transition process aiming to increase the retention rate. Still, over the recent years, we have extended our services to enhance diversity, intelligence, inclusion and gender balance at all levels in the organization.

From being a company mainly focussing on personal issues related to international assignments, LIVING INSTITUTE is now working in the field of enhancement of diversity intelligence, inclusion and creating gender balance in a broader sense.

In 2014 we introduced new solutions for companies with an ambition to create a gender-balanced organization.

In 2016 we introduced the leadership program Inclusive Leadership – claim the future and in 2018, we introduced Inclusion Surveys measuring and monitoring the level of inclusion, belonging and psychological safety.
